General Operations Manual

APPENDIX: 1

SAFETY & SECURITY BULLETIN (U-SMS-09)

Revision: Original

Date: 7/1/2015

Bulletin No: 17-006

Date: 20/May/17

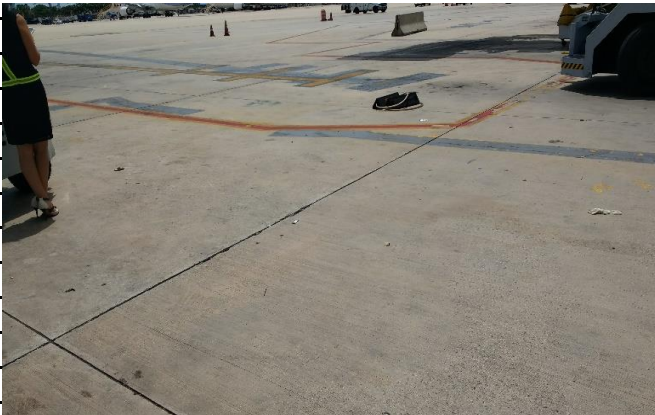

SUBJECT: GSE EQUIPMENT RESTRAINT AREA & EQUIPMENT RESTRAIN LINE

APPLICABLE TO: ALL RAMP PERSONNEL

Remember

Equipment Restrain Areas (ERA) is the area on the APRON (RAMP) where the aircraft is parked during ground operations. in some airport, such as MIA, they are indicated by a line. This areas must be cleared of FOD and or any GSE during the arrivals and departure operations. IGOM 4.1.2.3/ UAS Ramp Manual Section 6.

Wheel chocks are considered GSE, therefore they must be kept behind this lines during arrival operation and once removed before departure. THEY should never be placed next to the lead in line, this can cause and incident/ accident if the nose gear in to run them over

WHAT NOT TO DO

**Chocks inside the maneuvering area during arrival
Outside Restraining AREA**

CORRECT WAY TO DO IT

**KEPP all GSE inside the Equipment Restrain Areas (ERA),
behind the line during arrivals and departures operations...
THIS INCLUDE WHEEL Chocks**
