

ULTRA AVIATION SERVICES, INC.

General Operations Manual

APPENDIX: 1

SAFETY & SECURITY BULLETIN (U-SMS-09)

Revision: Original

Date: 7/1/2015

Bulletin No: 19-014

Date: 27/Jun/19

SUBJECT: RAMP SAFETY

APPLICABLE TO: ALL ULTRA RAMP personnel

REMEMBER

When assigned to load a narrow body aircraft with loose luggage and or cargo

- 1- always have in your possession your FL Driver License, MDAD ID, and AOA drivers permit
- 2- You must insure that your GSE is in working condition by performing a pre trip safety walk around
- 3- Never touched the ceiling of the cargo bin with bags or cargo. ALWAYS LEAVE THE 2" GAP**

Baggage Loading

When loading baggage in to the cargo hold it is important to remember to leave at minimum a two inch gap between baggage and the roof of the cargo hold to ensure proper operation of the fire suppression system in the event of a fire.

- Two inch gap

REVISION 0 05OCT15

BE safe your life and that of others might depend on it
