For complete segregation and separation distances, refer to your company specifications.
An "X" at the intersection indicates packages containing these classes/divisions require segregation. Classes not included do not require segregation.

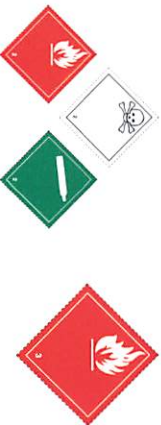

Hazard and Handling Labels

Class 1

* Articles bearing the Explosive labels shown above and falling into Divisions 1.1, 1.2, 1.4-F, 1.5 and 1.6 are normally forbidden.

Class 2

Class 3

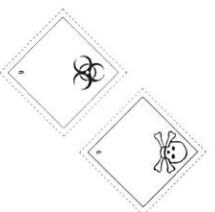

Class 4

Class 5

Class 6

Class 7

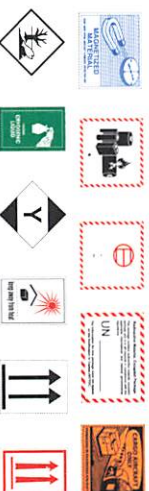

Class 8

Class 9

Handling Labels

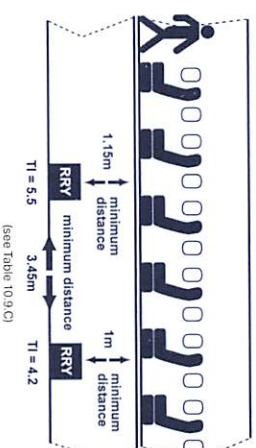

Loading Instructions

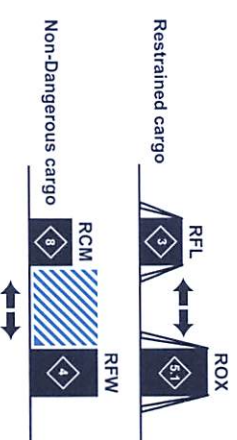

CAO cannot be loaded on a passenger aircraft.

RRY must be loaded on the floor (compartment or ULD) to ensure locating limitations are met.

Packages requiring segregation can be physically restrained, or separated by other, non-dangerous cargo.

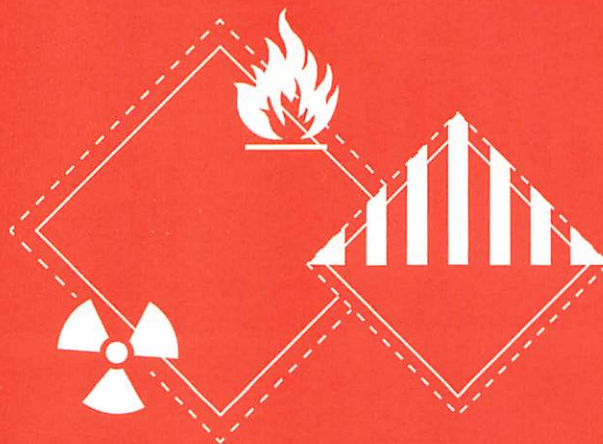

Emergency chart

IMMEDIATELY NOTIFY SUPERVISOR

- and implement local company emergency procedures.
- Identify substance(s) involved by reference to documentation or package markings
- Isolate the package by removing packages or properly
- Isolate the area and advise emergency services as per local procedures (airport, fire department, etc)
- Avoid contact with package contents
- * Do not load
- * Unload packages (except Class 6, 7 and 8, segregate other packages from them)
- * Inspect other packages in consignment
- * Approach leaking substances with caution (i.e. avoid inhalation and touch)

The Dangerous Goods Community

PRECISION IS THE RULE!

Over 150 pages listing more than 3,000 commonly shipped dangerous goods – it's easy to lose your place. Use this ruler to mark a specific entry and pinpoint the precise information you need.
