F.1 PASSENGER DEPARTURE**F.1.1 PRE-DEPARTURE ACTIVITIES****F.1.1.1 PASSENGER PRE-FLIGHT PREPARATION****PAB 1.1.1**

Prepare check-in for flights in accordance with operating airline policy prior to the opening of web or airport check-in, and to verify all necessary data has been transferred into the check-in system correctly.

- Review the booking status.
- For code share flights with an active blocked space agreement, check the allotment to ensure the block of seats, as agreed, is guaranteed to the partner.
- Review the curtain version (if applicable).
- Confirm the Passenger Name List (PNL) and Additions and Deletions List (ADL) were properly transmitted and match the booking status.
- Block seats for security officers, crew, weight and balance, and if seats are unserviceable.
- Confirm the seating plan is set according to the actual aircraft type and version.
- Review the flight remarks, if applicable.
- Record passenger status on PNR, if applicable.
- Review the boarding time, departure time, and gate. Brief staff about the reason for any delays.
- Apply payload restrictions, if any.
- Check the passenger list for special passengers (e.g. WCH, UM, etc.) and pre-assign as per operating airline policy and according to the aircraft type.
- If not pre-reserved, prepare seating for families traveling with infants or children, as per operating airline policy.
- Where free/open seating is applied, inform the crew and passengers and ensure special category passengers have appropriate seats.
- Ensure flight status is open for web check-in if applicable.
- Check-in is opened once the pre-flight preparation is complete.

F.1.2 CHECK-IN COUNTER REQUIREMENTS**PAB 1.1.2**

Prior to opening the check-in counters:

- Start and test equipment.
- Ensure scales are functioning. Make sure that they are periodically checked and calibrated, and actions recorded and retained in accordance with customer airline.
- Ensure adequate stock of any other operating airline required tags.
- Display operating airline required signage, both electronic and manual versions.
- Ensure Dangerous Goods notifications are prominently displayed at the check-in area as well as ticket offices, baggage drop-off areas, self serve check-in areas, and transfer counters.
- Prepare check-in queues, stanchions, carpets, baggage sizers, podiums etc., as per operating airline specifications.
- Stock boarding card and bag tag printers as per operating airline requirements.

Section: F

Passenger Baggage and Handling (PAB)

Revision:

7

Date:

02/02/2022

F.1.3 PASSENGER CHECK IN**PAB 1.2.1**

A boarding pass containing the passenger's name, as recorded in an official identity document, must be issued to each seated passenger during the check in process.

F.1.3.1 CHECK-IN DEADLINES

Apply check-in deadlines as per operating airline policy, respecting applicable passenger rights and on-time departure requirements.

F.1.3.2 OPERATING CARRIER, MARKETING CARRIER, AND WET LEASE

Advise the passenger of the operating carrier no later than the time of check-in, if different than the one noted as the "carrier" on the ticket.

F.1.3.3 CHECK IN TYPES

Check-in may be provided at check-in counters, via self service methods such as web check-in, kiosk or SMS, and may be performed using a departure control system (DCS) or manually.

F.1.3.4 MANUAL CHECK IN

Where no DCS is available or in case of DCS failure, apply established manual check-in procedures. Local back-up procedures must be established in every station and tested regularly, and include provisions for the collection and transmission of API data as required.

F.1.3.5 THROUGH CHECK IN

Perform through check-in whenever possible and as per the interline agreement. Travel documents must be checked for all through-checked parts of the journey. If an airport change is involved, through check-in is permitted; however, through baggage tagging is not permitted.

F.1.3.6 RETURN CHECK IN

For return check-in to be permitted:

- the return journey must be within 24 hours after departure;
- no checked baggage is permitted;
- no change of cities is involved;
- operating airline approval is required.

Section: F

Passenger Baggage and Handling (PAB)

Revision: 7

Date: 02/02/2022

F.1.3.7 SELF SERVICE CHECK IN

Online/web check-in may be offered if the following conditions are met:

- The passenger is holding an electronic ticket.
- The passenger is departing from an airport where the operating airline's or ground handler's DCS is in use.
- The passenger meets any other qualifying criteria set by the operating airline.

F.1.3.8 MOBILE CHECK IN

Mobile check-in may be offered if the following conditions are met:

- The passenger holds an electronic ticket.
- The passenger is departing from an airport where the operating airline's or ground handler's DCS is in use.
- The passenger meets any other qualifying criteria set by the operating airline.

F.1.3.9 SMS CHECK IN

SMS check-in is applicable provided the following conditions are met:

- The passenger has registered for SMS check-in.
- The passenger holds an electronic ticket.
- The passenger is departing from an airport where issuance of a mobile boarding card is applicable.

F.1.3.10 AFTER VISITING A SELF-SERVICE CHECK-IN**PAB 1.1.6**

When a passenger comes to check-in after visiting conducting a self service check-in, with all relevant travel documents a passenger service agent must verify the following:

- Remote-issued boarding pass(es) and baggage tag(s) presented by the passenger at check-in are valid and match the name on the identity document provided.
- Activate the baggage tag(s), if applicable.
- Valid travel documents to enter at the destination, including transit stations, as applicable.

F.1.3.11 CHECK IN OPENING

Conduct a staff briefing for check-in agents before the check-in counters are opened and receive and review any summarized flight information.

Section: F

Passenger Baggage and Handling (PAB)

Revision: 7

Date: 02/02/2022

F.1.3.12 CHECK IN CLOSING**PAB 1.2.1**

Upon closing of the flight, it is imperative that the individual and cumulative weight data and information is communicated and transferred to Load Control. The data should include, but is not limited to the following:

- All checked in passengers, including supernumeraries and their baggage.
- All loaded items that exceed normal allowances.
- Checked items removed from passengers prior to boarding
- Non-normal cabin load items.

F.1.4 BAGGAGE DROP OFF**PAB 1.1.7**

Passengers who have used a self-service check-in facility may drop their checked baggage at a baggage drop-off. Passenger Service agent will verify the following:

- Review the boarding pass and pull up the passenger data in the check-in system.
- Verify that the passenger is traveling on the respective flight.
- Verify identity and travel document, assess carry-on baggage, and accept checked baggage.
- Get confirmation from the passenger that no dangerous goods are in the baggage.
- Add baggage information and any SSR's to the DCS if required and apply any related fees as per operating airline policy.

F.1.5 TRAVEL DOCUMENTS AND VERIFICATION

- Check the validity of the ticket with regard to the itinerary, flight, date, carrier, reservation status, class, and restrictions.
- Check the ticket for the final destination and confirm this with the passenger.
- Verify the passenger's identity against the travel document presented, including review of date of birth, expiry status of document, a visual comparison of the photo to the passenger, and ensure the name on the travel document matches the booked name and are valid to enter at the destination, including transit stations, as applicable.
- Verify the travel document is valid and good for all persons traveling, as not all States allow family members to be registered in a single passport.
- Report any document that shows signs of tampering.
- Locate the passenger in the DCS and review any special remarks.
- Check travel documents for destination and/or transit requirements.
- Review Visa or entry conditions or limitations if required.
- Collect Advanced Passenger Information (API) if required.
- When you identify an issue with a document, notify your supervisor who will contact the appropriate authority for assistance.

Section: F

Passenger Baggage and Handling (PAB)

Revision: 7

Date: 02/02/2022

F.1.5.1 ADVANCE PASSENGER INFORMATION

Many governments require airlines to submit advanced passenger electronic data (API) at specified times for disembarking passengers.

Information is generally collected at the time of check-in, or provided from data collected during booking, and verified during presentation of the travel document.

As per operating airline instructions, collect API data at the time of check-in, or review data already provided.

Transmit API data at pre-arranged times to recipients specified by the airline. Always protect passenger's personal information and securely dispose of any related paperwork not kept on file.

F.1.6 PASSENGER ACCEPTANCE**F.1.6.1 REQUIREMENTS FOR PASSENGER ACCEPTANCE**

Certain categories of passengers may be refused travel at the operating airline's discretion. Apply the operating airline policies with respect to acceptance.

F.1.6.2 SEATING

Each passenger (except infants not occupying a separate seat) is assigned an individual seat number per flight. Certain airlines operate a free/open seating policy.

- Allocate seating for special categories of passengers in accordance with operating airline policy.
- The acceptance of passengers on the waitlist is based on booking status and operating airline directives.

F.1.6.3 EXIT ROW SEATING

Passengers occupying emergency exit row seating must be able-bodied, and therefore excludes INF, UMR, MEDA, etc. Occupancy of emergency exit rows is restricted in accordance with operating airline policy and host state requirements.

Section: F

Passenger Baggage and Handling (PAB)

Revision: 7

Date: 02/02/2022

F.1.7 PASSENGER BOARDING**ORM 2.11.1**

- Check that boarding facilities and gate monitors are displaying flight information.
- Ensure Dangerous Goods and Prohibited Articles notices are displayed at the boarding gate.
- *If walking on apron, ensure the route to the aircraft is safe and clearly marked for both passengers and staff.*
- For jetbridge boarding, secure and mark off the route to the aircraft.
- Obtain clearance for boarding from the flight crew and according to local procedures and operating airline policy.
- Follow safety requirements for fueling in progress as per operating airline GOM.
- Make boarding announcements as per operating airline standards.
- Follow policies for passengers requiring assistance or pre-boarding.
- Verify each passenger's identity as per the requirements.
- Check the name on the passenger identity document with the one on the ticket, and visually match passenger with photograph.
- Confirm each passenger's boarding acceptance in the DCS before allowing them to board.
- For manual or non automated boarding, check the flight number and date on the boarding card.
- Apply cabin baggage policies of the operating airline, and account for any gate tagged items.
- Secure the flight by matching the checked-in passengers to the boarded passengers.
- Provide final passenger numbers to cabin crew.
- Provide required flight documents to cabin crew.
- Ensure communication with load control regarding passenger and/or baggage information.
- Send required post flight messages upon flight close out.

F.1.7.1 PASSENGER BOARDING DISCREPANCIES**PAB 1.1.1**

If there are passenger discrepancies (minus or plus), they must be resolved prior to closing the aircraft door.

- Make every attempt to locate missing passengers and obtain visual proof of boarding and documents if they are located on the aircraft.
- Apply operating airline procedures and government regulations with respect to the removal of checked baggage of passengers who check-in but fail to board.
- Notify crew and load controller of any last minute changes to passenger and/or baggage load.

F.1.7.2 BOARDING IN CASE OF DCS BREAKDOWN

Where no DCS is available or in case of DCS failure, apply manual boarding procedures.

Ensure the final checked-in count matches the boarded passenger count prior to door closure and prepare and board a final manifest.

F.1.8 FLIGHT DOCUMENTS

Provide the flight crew with the required documents according to the operating airline specifications.

Section: F

Passenger Baggage and Handling (PAB)

Revision: 7

Date: 02/02/2022

F.1.8.1 PASSENGER INFORMATION LIST (PIL)

The Passenger Information List (PIL) provides information to the cabin crew about passengers on board, (name, seat number, special service requirements).

- Provide a PIL to the senior cabin crew member before boarding.

F.1.8.2 OTHER FLIGHT DOCUMENTS

Other required documents may include:

- final manifest;
- bag tag list for double destination flights;
- general declarations if required;
- other special information (i.e. INAD documents, etc.).

F.1.9 POST FLIGHT DEPARTURE ACTIVITIES**F.1.9.1 MESSAGES**

Ensure all relevant messages are dispatched to the appropriate addresses, as per the operating airline specifications. Messages may include:

- Teletype Passenger Manifest (TPM)
- Passenger Transfer Message (PTM)
- Passenger Service Message (PSM)
- Passenger Protection Message (PPM)
- Seat Occupied Message (SOM)
- Industry Discount Message (IDM)
- Advance Passenger Information (API)
- Electronic Ticket List (ETL)

F.1.9.2 FLIGHT DOCUMENT RETENTION

Retain (electronically or paper files) flight documents as per operating airline procedures and for a period of no less than three months unless otherwise specified.

Section: F

Passenger Baggage and Handling (PAB)

Revision: 7

Date: 02/02/2022

F.2 PASSENGER SECURITY**F.2.1 SECURITY OF DOCUMENTS****F.2.1.1 BOARDING PASSES, TRANSIT CARDS, AND BAGGAGE TAGS****PAB 2.5.5**

All materials used for passenger and hold baggage processing (e.g. boarding cards, baggage tags, vouchers, stamps) must be protected or be under surveillance and removed from counters to prevent unauthorized access and use.

All boarding cards, baggage tags, vouchers, stamps or other materials used to issue travel documents to passengers are to be secured by the passenger service manager in a locked office or cabinet.

F.2.1.2 DISPOSAL OF PRINTED DOCUMENTS

Printed material such as boarding passes, passenger lists, and handling forms may have to be reprinted and are therefore left behind as waste. Dispose of these documents according to data protection rules, as they contain passenger data. Unauthorized persons shall not be given access to printed documents containing passenger data or their contents.

IMPORTANT! During the check-in process **YOU MUST DESTROY** any unused printed material containing passenger information and dispose of the documents. Be sure to scan the check-in area clean up any documents or paper in the area before leaving the counter.

F.2.1.3 COUNTER AND AREA SECURITY**PAB 2.5.5**

Departure control systems (check-in systems) must be controlled to prevent unauthorized access.

- The passenger service managers and supervisors are responsible to prevent unauthorized use and access to un-issued (blank) boarding passes. Prior to commencement of the check in process, they will obtain blank boarding passes and baggage tags from the secure store and take them to the counter for use.
- Before leaving the counter, remove boarding cards and baggage tags from the respective printers and return them to the secure store in the passenger service office.
- Before leaving the counter, sign-out, log-off and lock the system.
- Before leaving the counter, destroy and dispose of any unused printed materials that may have passenger information on them. (e.g. boarding passes, bag tags, declaration forms, etc.)
- Observe regulations concerning the usage of sign-ins and passwords.

Section: F

Passenger Baggage and Handling (PAB)

Revision: 7

Date: 02/02/2022

F.2.1.4 RESTRICTED AREAS

Secure all gate and departure areas by keeping doors closed, use appropriate barricades when directing passengers.

- Ensure all access doors are closed when not in use.
- Position staff as required to direct passengers.
- If passengers have to walk on the apron to aircraft, ensure passengers proceed directly to the aircraft.
- If transportation has to be provided to passengers to move them from the terminal building to the aircraft, make sure only authorized personnel and screened passengers are allowed to board the vehicle.

F.2.2 PASSENGER SUITABILITY FOR TRAVEL***PAB 1.2.9***

Assess each passenger in terms of security risk by looking for anomalies and observing certain emotional characteristics and/or body language. Be on the lookout for overall fitness to fly, including potentially contagious diseases, medical conditions, intoxication, etc.

Further questioning may be required to assist with passenger assessment.

- When you identify a potential problem passenger, notify your supervisor.
- The supervisor will contact the appropriate local authority for assistance.

F.2.3 SECURITY OF PASSENGERS AND THEIR BAGGAGE

It is the responsibility of the supervision staff to ensure all security threats are immediately reported to the operating airline, flight crew and applicable authorities as per local requirements. Apply operating airline and/or regulatory airport authority security procedures for the handling of passengers and their baggage in the event of a bomb threat or other increased security threat condition.

Section: F

Passenger Baggage and Handling (PAB)

Revision: 7

Date: 02/02/2022

F.3 PASSENGER ARRIVAL, TRANSFER AND TRANSIT**F.3.1 PRE-ARRIVAL**

Review the pre-arrival information from DCS and/or messages.

- Prepare for short connections if applicable.
- Arrange facilitation for passengers requiring assistance, e.g. UMNR, PRMs.
- Check requirements for any gate delivery mobility aids.
- In case of delay of arrival, check onward connections and make new reservations if required and as per operating airline policy.

F.3.2 ARRIVAL**ORM 2.11.1**

- If walking on apron, ensure the route to the aircraft is safe and clearly marked for both passengers and staff.
- Prepare jetbridge, ensuring it is free of debris and position as per the standard height for the aircraft type.
- Secure the disembarkation route for passengers.
- Disembark passengers in accordance with operating airline policy.
- Provide assistance to passengers requiring it. Communicate any delays in providing assistance services.

F.3.3 TRANSFER**F.3.3.1 PASSENGER HANDLING AT CONNECTING AIRPORT**

If applicable, and as per operating airline policy:

- Check the inbound/outbound connections and the number of passengers affected.
- Check time-critical connections, and inform gate staff of onward transfer.
- Prepare for handling of passengers requiring assistance.
- Meet the transferring passengers upon arrival of the incoming aircraft.
- Direct passengers:
 - through-checked passengers to the appropriate departure gate(s);
 - non-through checked passengers to the transfer desk or gate for check-in, whichever is applicable.

F.3.4 TRANSIT

Transit passengers may be allowed to disembark when scheduled ground time and local circumstances and facilities permit, in accordance with operating airline policy.

Certain categories of passenger should be escorted during the transit time.

Local government requirements must be applied regarding security of transit passengers up to and including screening requirements.

Section: F Passenger Baggage and Handling (PAB)

Revision: 7
Date: 02/02/2022**F.3.4.1 DISEMBARKATION OF TRANSIT PASSENGERS****F.3.4.1.1 DISEMBARKATION PROCEDURE**

- Provide each passenger with a transit boarding pass or instruct passengers to retain their original boarding pass.
- Inform passengers about boarding time and gate and available facilities.
- Transit passengers must be re-secured when re-boarding the flight. (i.e. travel document checked, boarding status verified, transit card collected)

F.3.4.1.2 SOME TRANSIT PASSENGERS REMAIN ON BOARD

As per operating airline policy, there may be categories of passengers that stay on board if locally permitted.

F.3.4.2 BOARDING TRANSIT PASSENGERS**F.3.4.2.1 PROCEDURE**

- Board transit passengers before local passengers.
- Re-secure the flight by checking travel documents and validating boarding status by collection of the transit card or review of the original boarding card. Validation may also be done using the flight manifest or DCS.

F.3.4.2.2 MISSING TRANSIT PASSENGER

The flight must be re-secured before door closure. If passengers are missing, apply the procedure for missing passengers.

F.3.4.3 PROGRAMMED AIRCRAFT CHANGE EN ROUTE

- Advise cabin crew that all transit passengers must disembark with their carry on baggage.
- Distribute transit boarding passes (or instruct passengers to retain their original boarding pass) and inform passengers about boarding time and gate and available facilities.
- Provide passenger assistance as required.
- In case of a change of configuration, assign passengers new seat numbers if applicable, or apply free/open seating.

F.4 SPECIAL CATEGORIES OF PASSENGERS**F.4.1 MINORS TRAVELING ALONE****PAB 1.6.3****F.4.1.1 UNACCOMPANIED MINORS (UMNR)****F.4.1.1.1 SEATING**

Seat UMNRs as per operating airline policy and do not assign seats in emergency exit rows.

Section: F

Passenger Baggage and Handling (PAB)

Revision: 7

Date: 02/02/2022

F.4.1.1.2 CONNECTION ACCEPTANCE RESTRICTIONS

Observe operating airline policy if any.

F.4.1.1.3 PROCEDURES FOR HANDLING UNACCOMPANIED MINORS**PAB 1.6.3**

- Complete the handling advice/declaration form ensuring the responsible adult has signed authorization and provided proof of identity.
- Distribute and keep copies as required.
- Ensure the correct remarks and SSR codes are in the check-in record.
- Apply handling fee where applicable.
- Inform the responsible adult to remain at the airport until the aircraft is airborne.
- UMNMR must not be unsupervised until handed over to the cabin Crew.
- Advise/release responsible adult once flight is airborne.

F.4.1.1.4 TRANSFER STATION PROCEDURE

- Meet, assist UMNMR and collect any travel documents from the cabin crew.
- Hand over the UMNMR to the cabin crew of the connecting flight.
- In case of interline transfer, hand over UMNMR to the onward connecting airline agent.

F.4.1.1.5 TRANSFER STATION PROCEDURE

- Meet, assist UMNMR and collect any travel documents from the cabin crew.
- Complete the handling advice/declaration form for airline staff responsible.
- Where applicable, ensure baggage of UMNMR is collected.
- Hand over the UMNMR only to the designated adult noted on the handling advice after verifying the identity of this person and having received his signature for receipt of the UMNMR.

F.4.2 INFANTS AND CHILDREN**F.4.2.1 INFANTS**

An infant is a minor that has not yet reached his/her 2nd birthday.

F.4.2.1.1 SEATING

The maximum number of infants allowed per aircraft is limited by the number of supplemental oxygen masks available on the aircraft.

Infants are considered children and must be assigned a seat when, during the journey, they reach the age of 2.

Restrictions may exist regarding the number of infants permitted per adult passenger, or the minimum age required to be responsible for an infant. Apply operating airline policy.

Section: F

Passenger Baggage and Handling (PAB)

Revision: 7

Date: 02/02/2022

F.4.2.1.2 AIRCRAFT BABY BASSINETS

If the aircraft is equipped with baby bassinets, apply operating airline policy for assignment, respecting any age and weight limitations.

F.4.2.1.3 BABY STOLLERS

Apply operating airline policy regarding checked-in or delivery at aircraft (DAA) service for strollers and provide information to the passenger concerning the procedure, if applicable.

F.4.2.2 CHILDREN**F.4.2.2.1 SEATING**

A child is a minor between 2 and 12 years of age, having reached his/her 2nd birthday but not his/her 12th birthday.

F.4.2.2.2 CHILD RESTRAINT DEVICE

Apply operating airline procedures for the acceptance and use of car seats and other restraint devices. Verify their conformity as per the airline specifications.

- Make sure the child restraint device is placed on a seat which will not hinder the evacuation of any passenger.
- Do not assign a seat for the child restraint device in an emergency exit row, or the row forward or rear of an emergency exit row.
- Respect any operating airline specific limitations, as not all seats may be suitable.

F.4.3 GROUPS**F.4.3.1 GENERAL**

A group is defined as a party of at least 09 passengers (not including infants), travelling together.

F.4.3.2 CHECK IN

- Check-in and accept all passengers individually.
- Assign seats together, if requested, respecting any special seating requirements.
- Issue baggage tags individually.
 - Each piece of baggage must bear the respective passenger's identification
 - Exception: Bag tags for family members travelling together may be issued on one family name.

F.4.3.3 NON STANDARD GROUPS

- Unusual groups, excessive weights, or anything outside the standard need to be communicated to load control (i.e. sports teams with higher passenger weights).

Section: F

Passenger Baggage and Handling (PAB)

Revision: 7

Date: 02/02/2022

F.4.4 PASSENGERS REQUIRING ASSISTANCE

For passengers with disabilities and those requiring or requesting assistance;

- Ask the passenger what assistance they require and how you can help them.
- Discuss the most appropriate seating based on their individual needs and the aircraft specifications, even if seats have already been pre-assigned.
- Advise passengers what services and assistance are available based on their needs.
- Advise the passenger of operating airline equipment such as on board wheelchairs, Braille or tactile markings, accessible lavatories.
- Provide information to passengers in alternate formats upon request.
- Ensure accurate SSR codes and any other relevant information are recorded in the DCS.

F.4.4.1 PASSENGERS WITH REDUCED MOBILITY**PAB 1.6.5****F.4.4.1.1 IDENTIFYING PASSENGERS WITH REDUCED MOBILITY**

Appropriately code specific wheelchair requirements based on the passengers specific needs.—WCHC, WCHR, WCHS.

F.4.4.2 PASSENGERS WITH VISUAL OR HEARING IMPAIRMENTS

Provide passengers who identify themselves as persons having a visual or hearing impairment with access to the same information provided to other passengers.

Ensure accurate SSR codes and any other relevant information are recorded in the DCS.

F.4.5 PASSENGER REQUIRING MEDICAL CLEARANCE**PAB 2.1.1**

As per the local or regional elevated threat levels of an out break or per operating airline policy, medical clearance, proof of vaccination or a negative test of infection may be required by passengers who appear to have a communicable disease or condition that could pose a direct threat to the health and safety of others on the flight.

- Persons whose medical condition gives reasonable doubt that the individual can complete the flight safely without requiring extraordinary assistance during flight, e.g. persons with acute medical conditions as recent heart attack, stroke, embolism, persons with recent surgery.
- Persons requesting medical treatment during flight, e.g. needing extra oxygen or other medical treatment like infusions.
- The use of a face mask may also be required during flight.

F.4.5.1 IATA MEDICAL INFORMATION FORM (MEDIF)

The MEDIF is a standard form used to assess passengers requiring assistance however the use of the operating

Section: F

Passenger Baggage and Handling (PAB)

Revision: 7

Date: 02/02/2022

F.4.5.2 FREQUENT TRAVELERS MEDICAL CARD (FREMEC)

If a passenger is a frequent airline traveler and has a stable medical condition established by the initial medical clearance, then a frequent traveler's medical card (FREMEC) may be issued by the operating airline.

F.4.5.3 ADVANCE NOTIFICATION

Passengers are asked to advise the airline of their needs at the time of reservation.

Advance notification is required for the following, subject to airline acceptance and approval:

- Passengers traveling on a stretcher.
- The use of oxygen on board and the use of a personal portable oxygen concentrator, ventilator or respirator onboard.
- The carriage of an incubator.

F.4.5.4 SEATING

MEDA passengers are entitled to the most appropriate seating according to their needs, including the stowage of on board medical devices or equipment.

Appropriate seating, as per operating airline policy and passenger needs, should be assigned to:

- passengers needing extra oxygen on board;
- passengers traveling on a stretcher;
- completely immobile passengers;
- a passenger travelling with a service animal;
- a passenger with a fused or immobilized leg.

Provide adjacent seating as applicable for:

- a personal care attendant;
- a safety assistant;
- a reader/interpreter in case of a vision or hearing impairment.

PRM/MEDA and PRM/Non-MEDA may not be seated in emergency exits.

F.4.5.5 REQUEST FOR ASSISTANCE WITHOUT ADVANCED NOTICE

If a passenger's special needs were not communicated at the time of booking, or a passenger is identified as a PRM or potential MEDA case upon departure, take all reasonable efforts to accommodate the passenger. Ask appropriate questions and record required codes in the DCS.

F.4.6 PASSENGERS NOT REQUIRING MEDICAL CLEARANCE

As per the operating airline's policy, some passengers may not be required to provide medical clearance. For example:

- expectant mothers up to a date specified before expected delivery;
- persons with simple fractures or injuries;
- persons who are reduced in mobility due to age;
- SSR codes WCHR, WCHS or WCHC provided the condition has remained unchanged for at least the past six months;

Section: F

Passenger Baggage and Handling (PAB)

Revision: 7

Date: 02/02/2022

- persons who are visually or hearing impaired;
- persons with mental health issues.

F.4.6.1 HANDLING

Check that additional needs have been communicated via the respective SSR codes and entered into the DCS, and verify if escort requirements are fulfilled, if applicable.

F.4.6.2 REFUSAL OF PRM'S AND/OR MEDA CAUSES

Do not refuse the passenger unless there is a legitimate reason for refusal, as per the operating airline's policy.

F.4.6.2.1 RIGHT OF REFUSAL

A PRM and/or MEDA cases may be refused on the basis of the operating airline's General Conditions of Carriage (Right to Refuse Carriage).

F.4.6.2.2 REASONS FOR REFUSAL**PAB 1.6.6, 2.1.1**

Do not refuse a passenger unless one of the following reasons is applicable, and in accordance with the operating airline policy:

- The person has such a degree of physical infirmity that the trip would likely result in complications (e.g. diversion) or death.
- The person requires individual nursing or care during the flight, if not accompanied by a suitable escort.
- The person who, because of his physical or medical condition, pose a direct threat to the health or safety of other passengers, their property, the aircraft or crew that cannot be eliminated by providing additional aid or services or by other means (e.g. face masks, separate seating).
- The person fails or refuses to submit themselves to the specific conditions of carriage required by the operating airline regulations.
- Information is required about the passenger's medical condition (diagnosis) where the passenger's own physician refuses to disclose such information to the Authorized Medical Service.
- The person has a contagious disease or displays symptoms of a communicable disease.
- The person does not have a communicable disease test required for travel or entry at the destination.
- The person appears intoxicated on drugs or alcohol.

F.4.6.2.3 HANDLING

In case of refusal of a PRM and/or MEDA case, inform the passenger and explain the reason for refusal. Apply the operating airline policy with respect to rebooking to a later date, and/or making all efforts to accommodate the passenger on the next possible flight, if applicable, or refund of the ticket.

- Enter all relevant information about the reason for refusal into the PNR or in the operating airline report e.g. pax refused [flight/date] d/t lack of safety assistant [sit address/agent name]
- Forward the PNR or report to the appropriate airline department. Document all details of the incident and submit as specified by the operating airline.

F.4.7 SERVICE ANIMALS

As per the operating airlines acceptance policy, accept passengers with certified service animals into the cabin, and provide appropriate seating with room for both the passenger and the animal, including additional floor space where mandated and as per operating airline policy.

F.4.8 STRETCHER TRANSPORT**F.4.8.1 GENERAL**

If accepted by the operating airline, transport on a stretcher can be arranged provided advance notification is given for passenger(s) to be transported in a lying-down position.

- If stretcher transport has been confirmed at the time of booking, accept the passenger as per the operating airline policy.
- Status details are to be updated in the check-in record.

The acceptance of stretcher cases is linked to:

- The acceptance conditions of PRM/MEDA cases.
- The provisions for stretcher installation onboard the aircraft.

F.4.9 OXYGEN FOR MEDICAL USE**F.4.9.1 ACCEPTANCE**

Once the operating airline has accepted:

- arrange pre-boarding for the passenger;
- add appropriate SSR codes for assistance;
- seat the passenger as per operating airline policy allowing for stowage of equipment.

F.4.10 INADMISSIBLE PASSENGERS AND DEPORTEES**PAB 1.6.1, 2.1.2**

Prior to departure the Pilot-in-Command must be verbally notified of any passengers required to travel because they have been the subject of judicial or administrative proceedings by the boarding agent.

F.4.10.1 INADMISSIBLE PASSENGERS (INAD)

An INAD is an inadmissible passenger who is or will be refused admission to a State by its authorities.

F.4.10.1.1 UNACCOMPANIED OR ACCOMPANIED TRAVEL

In general, INADs travel without being accompanied.

INADs need to be accompanied if:

- the INAD physically resists carriage;
- he has already been denied transportation by another airline;
- there is any sign he might endanger the safety of the flight or passengers.

For the above reasons, unaccompanied INADs may also be refused at any stage.

Section: F

Passenger Baggage and Handling (PAB)

Revision: 7

Date: 02/02/2022

F.4.10.1.2 REFUSAL

If an INAD resists transportation or gives rise to the assumption that he/she will be the source of annoyance to other passengers or crew members, then only accept him/her according to the procedure for DEPA.

Refuse the carriage of deportees or inadmissible passengers if they are likely to:

- involve any risk to the safety of the flight;
- involve any hazard or risk to himself, other passengers or crew members;
- cause discomfort or make himself objectionable to other passengers;
- require special assistance from ground or in-flight staff.

F.4.10.2 DEPORTEES

DEPO is used to designate a deportee:

- that was formally ordered by the authorities to leave that State;
- who is under arrest who has to be transported to another State for legal reasons;
- who has applied for asylum and is transferred to the state responsible for the application;
- described by the term "Dublin Convention" as reasons for transportation.

DEPA–deportee accompanied

- A deportee who is escorted by security escorts during flight

DEPU–deportee unaccompanied

- A deportee who is not escorted by security escorts during flight

The responsibility for deportees lies fully with the state(s) concerned.

Deportees will be accepted for carriage only on request of an Authority and upon operating airline approval.

F.4.10.2.1 SEATING

Assign inadmissible passengers, deportees and their escorts seats in the rear of the cabin, but not directly adjacent to exits, in accordance with operating airline policy.

F.4.10.2.2 TRAVEL DOCUMENTS

Hand the travel documents to the crew if required by the local authorities, local regulations or operating airline procedure.

F.4.10.2.3 HANDLING

Advise the crew and Pilot-in-Command of INAD, DEPA and DEPU carriage.

F.4.11 UNRULY PASSENGERS**PAB 1.6.2****F.4.11.1 GENERAL CONDITIONS OF PASSENGER CARRIAGE**

Carriers may refuse carriage or onward carriage of any passenger for reasons of safety in order to prevent violation of any applicable law, regulations or order of any state or country to be flown from, into or over.

Section: F

Passenger Baggage and Handling (PAB)

Revision: 7

Date: 02/02/2022

F.4.11.2 HANDLING UNRULY PASSENGERS DURING CHECK IN OR BOARDING

Report to the supervisor any unruly passenger behavior you observe at check-in, in the lounge, or at the boarding gate, and put baggage of such passengers on standby.

F.4.11.3 IF PASSENGER IS DENIED CARRIAGE

- Offload the passenger in the DCS and offload his baggage.
- Document the case in the airport or airline report, with details of the passenger's condition (e.g. intoxicated, general abuse, etc.).

F.4.11.4 IF PASSENGER IS ACCEPTED FOR TRAVEL

- Inform Pilot-in-Command and the senior cabin crew member.
- Document the case in the airport or airline report with details of the passenger's condition.
- Report the incident to the applicable departments and the onward airport.

F.5 PASSENGER IRREGULARITIES**F.5.1 GENERAL PASSENGER IRREGULARITY GUIDELINES****F.5.1.1 INFORMATION AND COMMUNICATION TO PASSENGERS**

In general, provide immediate and accurate information at regular intervals

- Ensure staff are briefed for consistent delivery of information.
- Provide passengers written information about their rights according to applicable regulations, upon requested or as required.
- Provide information in alternate formats to passengers with impairments.

F.5.2 DELAYS**F.5.2.1 HANDLING PROCEDURES**

- Passengers must be advised and notified of delays, and kept informed at regular intervals.
- Where applicable, provide delay notice or passenger rights information and in alternate formats for passengers with impairments.
- Brief staff on the estimated time of departure, estimated time of arrival, and any provisions being offered.

F.5.2.2 DELAY KNOWN BEFORE CHECK IN

- Update revised times in the DCS.
- If applicable and as per operating airline policy, rebook any connecting flights according to the airline's priority sequence.
- Check the passenger and baggage through on the rebooked flight.

F.5.2.3 DELAY KNOWN BEFORE BOARDING

- Reconfirm the departure gate and time, and update the revised times in the DCS.
- Advise passengers accordingly and at regular intervals.
- Apply airline specific procedures for certain categories of passengers.

F.5.3 MISCONNECTION/CANCELLATIONS/DIVERSIONS

Handle misconnections in accordance with the operating airline's General Conditions of Carriage.

F.5.4 INVOLUNTARY CHANGE OF CLASS

Involuntary changes of class must be handled as per the operating airline policy.

F.5.5 DENIED BOARDING DUE TO UNAVAILABILITY OF SEATS**F.5.5.1 DELAY KNOWN BEFORE BOARDING**

Passengers holding a confirmed reservation may be denied boarding due to irregularity reasons, for example:

- overbooking of the flight;
- reduced aircraft seating capacity due to unserviceable equipment (cabin doors, slides, etc.);
- reduced weight/seat capacity due to a payload restriction;
- change of aircraft or version.

Apply operating airline policy for denied boarding

- If applicable, solicit volunteers and offer compensation and/or reProtection as per the operating airline policy.
- Provide written notice as per government regulations.
- Apply airline's involuntary denied boarding policy if no volunteers are solicited.

F.5.6 THREATS CLASSIFICATIONS

In accordance with applicable regulations and requirements of the customer airlines to address security threats, to include, as appropriate to the threat received, this section describes procedures of the threats.

Generally threats are classified in two categories

I - Specific Threats

Threat may be classified specific if the following factors are present:

- The airline is identified
- a specific flight is mentioned
- the exact date and/or time is stated
- the origin/destination of the flight is given
- a telephone threat is received at others, then the airline's published information or reservation number must be a factor.

Section: F

Passenger Baggage and Handling (PAB)

Revision: 7

Date: 02/02/2022

II - Non-Specific Threats

Threat may be classified as non-specific if the information given has the following factors present:

- The airline is not identified
- The flight is not specified
- Neither date or time is mentioned
- The threat is general in nature

F.5.7 RECEIPT OF THREATS**By Telephone**

The person receiving a telephone threat should:

- write the exact wording
- repeat the message to the caller and ask for confirmation
- classify the information received
- initial: try to write down the exact message volunteered by the caller before any discussion or interruption
- supplemental: other information gathered from the caller as the result of questioning and extended conversation
- Evaluation as to the seriousness of the threat should generally be based on the initial information only. Caution must be exercised in issuing supplementary information for evaluation purposes, since this information often lacks objectivity.

In Person

Threats received in person may be one of the following:

(i) Direct

The individual making the threat must be evaluated by the person receiving it, in order for the validity of the threat to be determined. Factors which should be considered in the evaluation of an individual include disgruntled passengers, whether the person is under the influence of alcohol or drugs, and threats made in a facetious or joking manner.

(ii) Indirect

Information received from a person other than the person actually making the threat should be evaluated in the same manner as a telephone threat or a threat received in person, directly. The person supplying the information should be identified and his credibility assessed.

Written Threats

A written threat should be considered as initial information and should be evaluated in the same way as a telephone threat.

Section: F

Passenger Baggage and Handling (PAB)

Revision: 7

Date: 02/02/2022

F.5.8 RESPONSIBILITY OF ACTION

When a threat is received, the customer airline representatives have to be informed and the customer airline has the responsibility of determining the course of action to follow the threat.

F.5.9 BOMB THREAT OR ANY OTHER INCREASED SECURITY THREAT**PAB 1.4.4, PAB 1.4.3**

Under a bomb or any threat conditions, Ultra will handle passengers and their baggage in compliance with the government regulations and the customer airline procedures. Ultra will immediately notify the customer airline representative and follow instructions. If threat is going to be handled by the local authority, follow instructions

Ultra will act in accordance with applicable regulations and requirements of the customer airline(s) for the handling of hold baggage in the event of an increased security threat condition.

Under the conditions of a bomb threat, raise the control of security and increase the control of passengers, cabin bags, hold bags, following measures that all items must be re-inspected.

F.5.10 SECURITY PROCEDURES - NOT BOARDED AIRCRAFT

- If the aircraft is not boarded, passengers will be moved to sterile controlled area where no one can leave the areas without approval of the security coordinator.
- Ground personnel must keep a sterile control access to the passenger areas.
- All cabin baggage must be re-screened
- Decision-making is a vital part of the action
- Aircraft search to re-inspect all
- Evaluate cargo and re-screen all cargo or if it is a critical doing, hold the cargo for 24 hours after original departure time has been analyzed.
- No passenger should leave the premises.
- Conduct an evaluation of the cargo classified shipments by originator, known shippers, first time shippers, or other conditions that recall an inspection.

F.5.11 SECURITY PROCEDURES - BOARDED AIRCRAFT

- Passenger services agent must follow airline procedures to deplane passengers.
- Fly crew and cabin crew will follow customer airline procedures to deplane passengers.
- All passengers must deplane with all bags.
- Passengers must be retained in a controlled area
- All cabin baggage must be re-screened
- No passenger is allowed to leave the premises until final decision is made by security.

Section: F

Passenger Baggage and Handling (PAB)

Revision:

7

Date:

02/02/2022

- Check and inspect all aircraft interior.
- Crew must deplane with all bags.
- Cargo will be off-loaded and evaluation must be made for decision making.
- Cargo recommendation is to hold for at least 12 hours.
- All hold baggage ensures 100% positive match and all have been re-inspected.
- Check and re-inspect all interline bags, unaccompanied bags. Airline security deals if, in the process, a piece is not able to find origin.

When the level of security threat increases, (country, airport or airline) in accordance with applicable regulations and requirements of the customer for the handling of hold baggage. The following procedures are applicable if no instruction is given by the customer airline.

- Follow the security customer airline procedures first
- It is recommended that under extreme conditions the following actions are taken:
- Refuse unaccompanied and "expedited" baggage unless it can be searched
- Double check all connecting baggage is re-inspected.
- Avoid accepting last minute passengers with hold baggage
- Check intensive control of the carry-on baggage
- Confirm passenger service of all checked connection baggage
- Implement additional random checks of hold baggage, and accept cargo only after strict precautionary measures, including search, decompression or time delay.
- Accept only parcels and letter packet mail which has been certified as harmless by national postal authorities.
- Consider use of X-Ray equipment or examine on selective basis
