

Bulletin No: 20-017

Date: 24-Nov-21

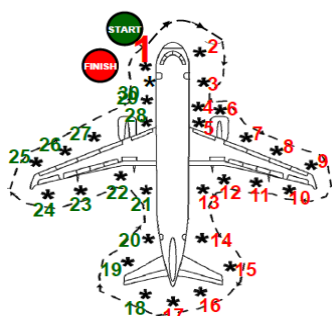

Reissued

SUBJECT: RAMP procedures reminder Post Arrival and Pre departure walk around

APPLICABLE TO: ALL RAMP PERSONNEL

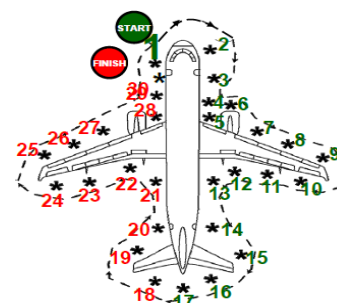

Remember company SOP dictates that before an aircraft is allowed to depart, and after an aircraft has arrived a complete safety walk around must be conducted. This practice prevents the aircraft from departing with damage to the fuselage and will discover any damage that the aircraft might have sustained a previous station or during flight

MUST BE CONDUCTED WITHIN 5 minutes of ARRIVAL or 10 min. before DEPARTURE

Always start your arrival Walk Around on the L1 area and then continue to the aircraft R side of the aircraft finishing back at L1 (left side of aircraft)

Always start your PRE Departure walk around on the area of L1 check the aircraft L side and then proceed to the R side of the aircraft. Finish at the L1 door area , once the Jetbridge has been removed

Report any finding immediately,. If any damage is found do not open/ close compartments adjacent to the damage

FOD found during walk-around

Bird on Main landing gear

Be SAFE follow all ramp safety rules and company SOP

NO walk-around performed. In-flight damage not found

Aircraft lost pannel during flight

REPORT all HAZARDS to safety@ultravi.com

APPENDIX: 1

SAFETY & SECURITY BULLETIN (U-SMS-09)

Revision: Original

Date: 7/1/2015

Bulletin No: 20-017

Date: 24-Nov-21

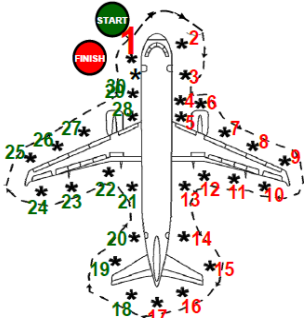

Reissued

SUBJECT: RAMP procedures reminder Post Arrival and Pre departure walk around

APPLICABLE TO: ALL RAMP PERSONNEL

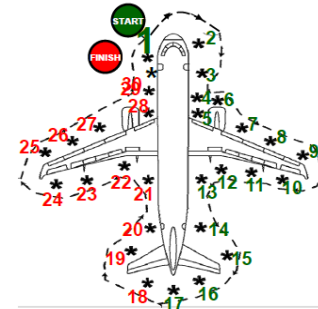

Recuerde que el SOP de la compañía dicta que antes de que se permita la salida de una aeronave, y después de que una aeronave haya llegado, se debe realizar una caminata de seguridad completa. Esta práctica evita que la aeronave parta con daños en el fuselaje y descubrirá cualquier daño que la aeronave pudiera haber sufrido en una estación anterior o durante el vuelo.

10 minutos de la LLEGADA o 10 minutos. antes de la salida

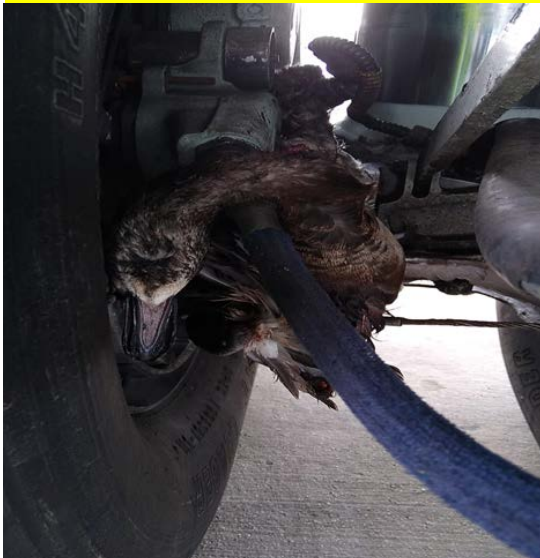

Siempre comience su caminata de llegada en el área L1 y luego continúe hacia el lado R de la aeronave terminando en L1 (lado izquierdo)

Siempre comience su caminata de salida PRE en el área de L1, verifique el lado L de la aeronave y luego continúe hacia el lado R de la aeronave. Termine en el área de la puerta L1, una vez que se haya quitado el Jetbridge

Informe cualquier hallazgo de inmediato. Si se encuentra algún daño, no abra / cierre los compartimentos adyacentes al daño

FOD encontrado durante la caminata

Ave en el tren de aterrizaje principal

NO caminata realizada. Daños ocurridos en el vuelo no encontrados

Panel perdido de la aeronave durante el vuelo
