

APPENDIX: 1

SAFETY & SECURITY BULLETIN (U-SMS-09)

Revision: Original

Date: 7/1/2015

Bulletin No: 18-013

Date: 23/Oct/18

Reissued

SUBJECT: Baggage safety

APPLICABLE TO: All ULTRA PERSONNEL

Section F, G and H of ULTRA GOM details the proper procedures when reporting baggage weights for weight and balance purposes

Remember know the airline that you are working and the aircraft type you are using
Expected passenger load and distribution;

Aircraft manufacturer's defined, and company imposed, limitations

Follow Company SOP for your safety

You are expected to be able to lift up to 70 without any help

If a piece of luggage weight between 71 and 100 pound ask for help, protect your back

If a piece of luggage weight more than 100 pound reported immediately to the airline representative and your manager and or supervisor. This is consider cargo

Follow all airline limitation

Example of airlines limitations

World Atlantic (WAA) as per their SOM, NO bags weighting at over 70 pounds will be accepted on their airplane

SWIFT AIR (SWQ) as per their GSM: Weight placard OPS-WEIGHT-01 must be affixed to items that exceed 100 pounds. The placard provides the weight of the item, the date weighed, and the signature of the Swift Air representative present during the weighing. If affixed to an item, the weight presented on the placard shall be utilized during the loading process.

200 pounds

106 pounds

REMEMBER: These bags need the authorization of the airline representative, NO THE CHARTER CSP operator REPRESENTATIVE. there will be not deviation from this procedure

Remember you SMS training report any unsafe acts, or hazard conditions to you supervisor or manager or anonymously to safety@ultravi.com

Be SAFE follow all ramp safety rules and company SOP
