Revision: Original

Date: 7/1/2015

Bulletin No: 19-017

Date: 5-Nov-19

SUBJECT: Passenger Loading Bridge, safe removal from aircraft

APPLICABLE TO: ALL Certified PLB operators

Remember when assigned to retrieve the Passenger Loading Bridge (PLB) from and aircraft YOU MUST follow these simple steps all the time

- 1- Do not operate a PLB unless you have received your certification as an Operator from Miami Dade Aviation Department training
- 2- Before attending to retrieve PLB, make sure that the Cabin door is closed
- 3- Retrieve canopy
- 4- Turn auto leveler OFF
- 5- Make sure that all GSE attached to PLB has been removed (ACU hose (S), 400hrz cables)
- 6- After making sure that your path is clear move PLB backwards
- 7- Do not allow other person but yourself on the rotating portion of the PLB as you reposition it
- 8- Store the PLB in the safety box

Never retrieve PLB with door open

STOP this practice F/A can fall

Make sure door is closed before removing PLB

Remember, when in doubt DO NOT ASSUME, ASK your supervisor or your training department

Do not become an statistic
